

If you think you live in a free country, then you have bought the lie!!

Just as there is night and day, hot and cold, and love and hate, so there is
also Freedom and Captivity.

How much do these Climate actions worry you? Do you feel free and able to
do your business?

IS THE CLIMATE CHANGE ACTION LIE ABOUT TO PUT YOU OUT OF ACTION?

Members of the UN have 'fessed up' to the lie!

Dr Ottmar Edenhofer (architect of UN Climate Change
economics) and Christiana Figueres (UN diplomat and
engineer of the 2016 Paris Agreement) are both on record
as saying **Climate Change has nothing to do with the
environment or saving the planet. It is about ending capitalism
by exacting a 'carbon price' from the rich, industrialized, developed economies of
the West.**

Beware: Agriculture and Transport are the next industries to be targeted hard

It's time our Government acknowledged what those at the UN have confessed about Climate Change. **The UN agenda (for all the world's governments) is much more scary and real** than just the myth that five friendly greenhouse gases, like plant-growing carbon dioxide, are frying or freezing the planet.

The major parties are silent on the non-binding Paris Agreement agenda – essentially promises of actions by developed nations to decarbonise their economies. In reality the agreements signed by participants on taking such action are not worth the paper they are written on. Australia stands by its 'agreements', but most other participants don't – they are simply non-binding 'token gestures'.

Australia, under Turnbull and Bishop, signed up to Paris in the knowledge they would sacrifice our energy sector on the altar of taxpayer-subsidised renewables on an economy-wrecking scale. Now it's our agriculture and transport sectors. **TOGETHER THESE THREE SECTORS ARE OUR NATION'S PILLARS.** They are the foundations of our enviable economic and living standards.

In 2019 they are coming for the Agriculture and Transport Sectors (think eating less meat, thinning livestock herds, cutting exports, electric cars [which need coal fired electricity to charge them!] and putting a high price

on fuel emissions). Both these sectors were targeted last December in Poland at the latest round of Paris Agreement talks.

Remember, we can always get out of the Paris Agreement!!

THIS SEMINAR IS YOUR CHANCE TO LEARN WHAT YOU NEED TO KNOW AND DO BEFORE IT'S TOO LATE. DON'T BE TOO 'SCARED' TO COME TO THIS MEETING. BE ACTIVE. STAND UP FOR YOU AND YOURS.

Through the enforced participation of the Australian people in the Climate Change agenda, we are enabling the biggest misappropriation of national and personal wealth in world history. THAT INCLUDES YOUR WEALTH, SECURITY, LAND OWNERSHIP AND FUTURE.

Meeting: Rockhampton Saturday 23rd March at 9am.

Speakers: Professor Emeritus of Earth Sciences and Professor of Mining Geology Ian Plimer.

Mining engineer, MBA & former senator, Malcolm Roberts,

Researcher and analyst of the Australian Constitution, Sue Maynes

You'll hear everything you need to know to help you understand what the media is (or is not) telling you, to bust the myths and lies, and to understand what you need to know to fight the 'lie'.

PLEASE register at: jointheD.O.T.S@outlook.com so that we know how much room, catering and how many chairs we will need.

FYI: listen to: Alan Jones interviews Viv Forbes 29th Nov 2018. (all about Clexit!) A radio interview:
