

Stop The Climate Stupidity

**Get out of Paris and renewables
and save our economy**

**David Archibald
July, 2022**

Stop The Climate Stupidity

Why would he say this?

**Brazil's new foreign minister believes
climate change is a Marxist plot**

Guardian newspaper 16th November, 2018

Stop The Climate Stupidity

Because the Marxists doing the plotting have been saying the same thing. In their own words:

Maurice Strong, organiser of the first UN climate summit, 1992 :

“We may get to the point where the only way of saving the world will be for industrialized civilization to collapse.”

US Senator Tim Worth, 1992:

“We have got to ride the global warming issue. Even if the theory of global warming is wrong, we will be doing the right thing in terms of economic policy and environmental policy.”

Richard Benedick, US State Department, 1992:

“A global warming treaty must be implemented even if there is no scientific evidence to back the greenhouse effect.”

Stop The Climate Stupidity

There's plenty more:

Christine Stewart, Canadian Minister of the Environment, 1988:

“No matter if the science of global warming is all phony...climate change the greatest opportunity to bring about justice and equality in the world.”

Mikhail Gorbachev, former chief communist of the planet, 1996:

“The threat of environmental crisis will be the international disaster key to unlock the New World Order.”

Jacques Chirac, former president of France, 2000:

“For the first time, humanity is instituting a genuine instrument of global governance, one that should find a place within the World Environmental Organization which France and the European Union would like to see established.”

Stop The Climate Stupidity

Yet more:

Ottmar Edenhofer, IPCC official, 2010:

“...one has to free oneself from the illusion that international climate policy is environmental policy. Instead, climate change policy is about how we redistribute de facto the world’s wealth.”

Stephen Schneider, lead author of IPCC reports:

So we have to offer up scary scenarios, make simplified, dramatic statements, and make little mention of the doubts we might have. Each of us has to decide what the right balance is between being effective and being honest.”

Kevin Trenberth, lead author of IPCC reports:

“None of the models used by the IPCC are initialized to the observed state and none of the climate states in the models correspond even remotely to the current observed state.”

Stop The Climate Stupidity

Still more:

Tom Wigley, National Center for Atmospheric Research, to Michael Mann :

“Mike, the Figure you sent is very deceptive ... there have been a number of dishonest presentations of model results by individual authors and by IPCC ...”

Tim Wills, Swansea University, 2007:

“What if climate change appears to be just mainly a multi-decadal natural fluctuation? They’ll kill us probably...”

None of these people have died yet for what they have done – only little old ladies in Australia who can’t afford heating in winter.

Stop The Climate Stupidity

Everybody wants to rule the World

The dominatrix is on the right in this photo, but far left politically.

Former head of the UNFCCC, Christiana Figueres:

The December 2015 climate treaty in Paris will be “a centralised transformation” that “is going to make the life of everyone on the planet very different”.

Stop The Climate Stupidity

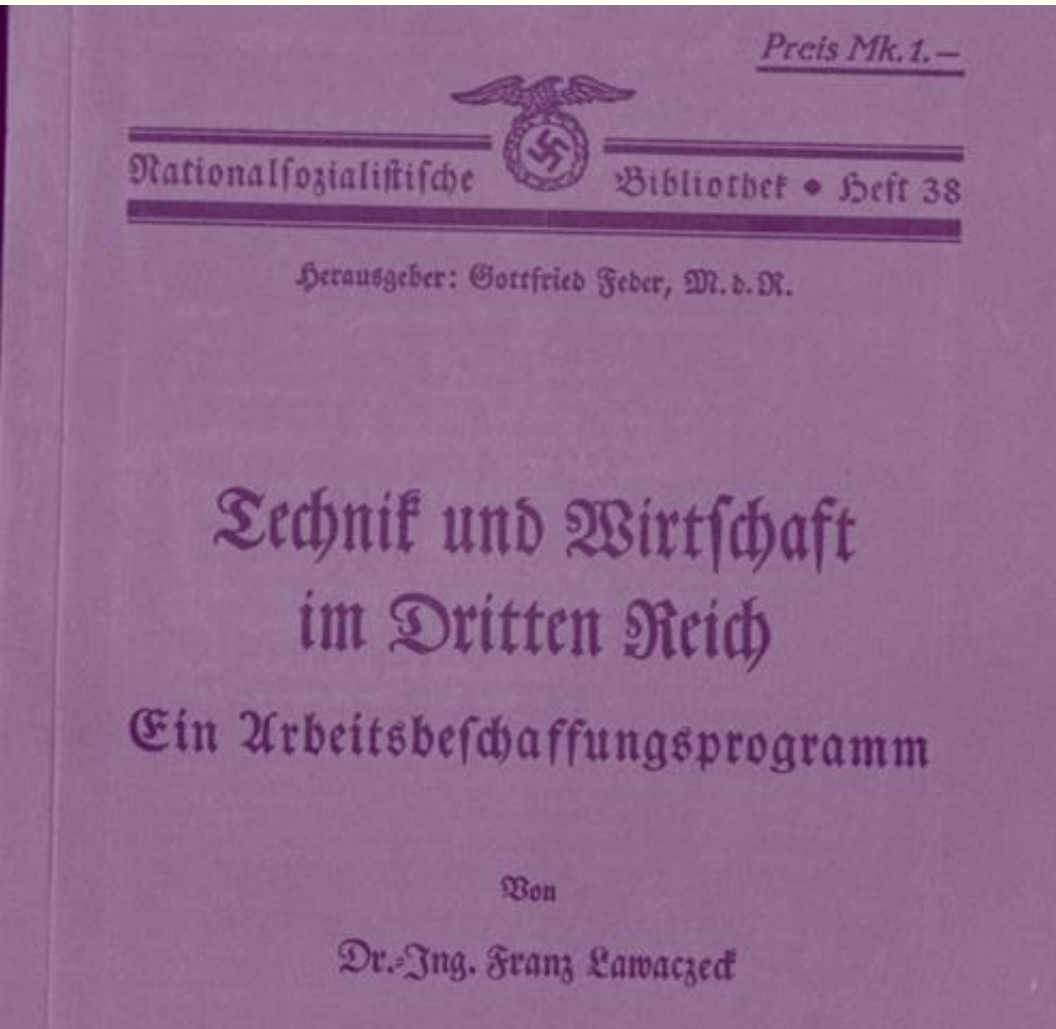

Hydrogen Recycled

We have seen enthusiasm for hydrogen before.

Stop The Climate Stupidity

The Nazi origins of global warming and renewable energy

Page 47:

Hydro and wind power can provide up to 80 % of energy. The renewable energy is flowing and free.

Page 60:

Our mission is to build the new hydro and wind power plants independent of the electrical grid, so they produce valuable storable energy in the form of hydrogen gas. Hydrogen can easily be stored and transported in pipelines.

Stop The Climate Stupidity

Design of a Nazi windmill 400 metres high producing 20 MW

This would have taken 25,000 tonnes of steel to make, approaching the amount used in the *Scharnhorst*. So wiser heads prevailed and the Nazi renewables push petered out by 1936.

Decorating the countryside with wind turbines is very much a Nazi concept.

Stop The Climate Stupidity

Nazi global warming science

Hermann Flohn, born in 1912, received his doctorate in 1934 and began work for the German Meteorological Service. In 1941 he published the first German language article on global warming, the title of which translates as *The activity of man as a climate factor*. Also in that year he became the chief meteorologist for the Luftwaffe High Command, providing advice for Operation Barbarossa. Herr Flohn survived the war and was still publishing alarmist papers on global warming 40 years later, for example this paper from the journal *Umschau* in 1980:

**Hermann Flohn:
CO₂-induzierte Warmzeit gefährlicher als Kernenergie**

Translates as *CO₂-induced warmth more dangerous than nuclear energy*.

Promoting global warming hysteria – things that Nazis do.

Stop The Climate Stupidity

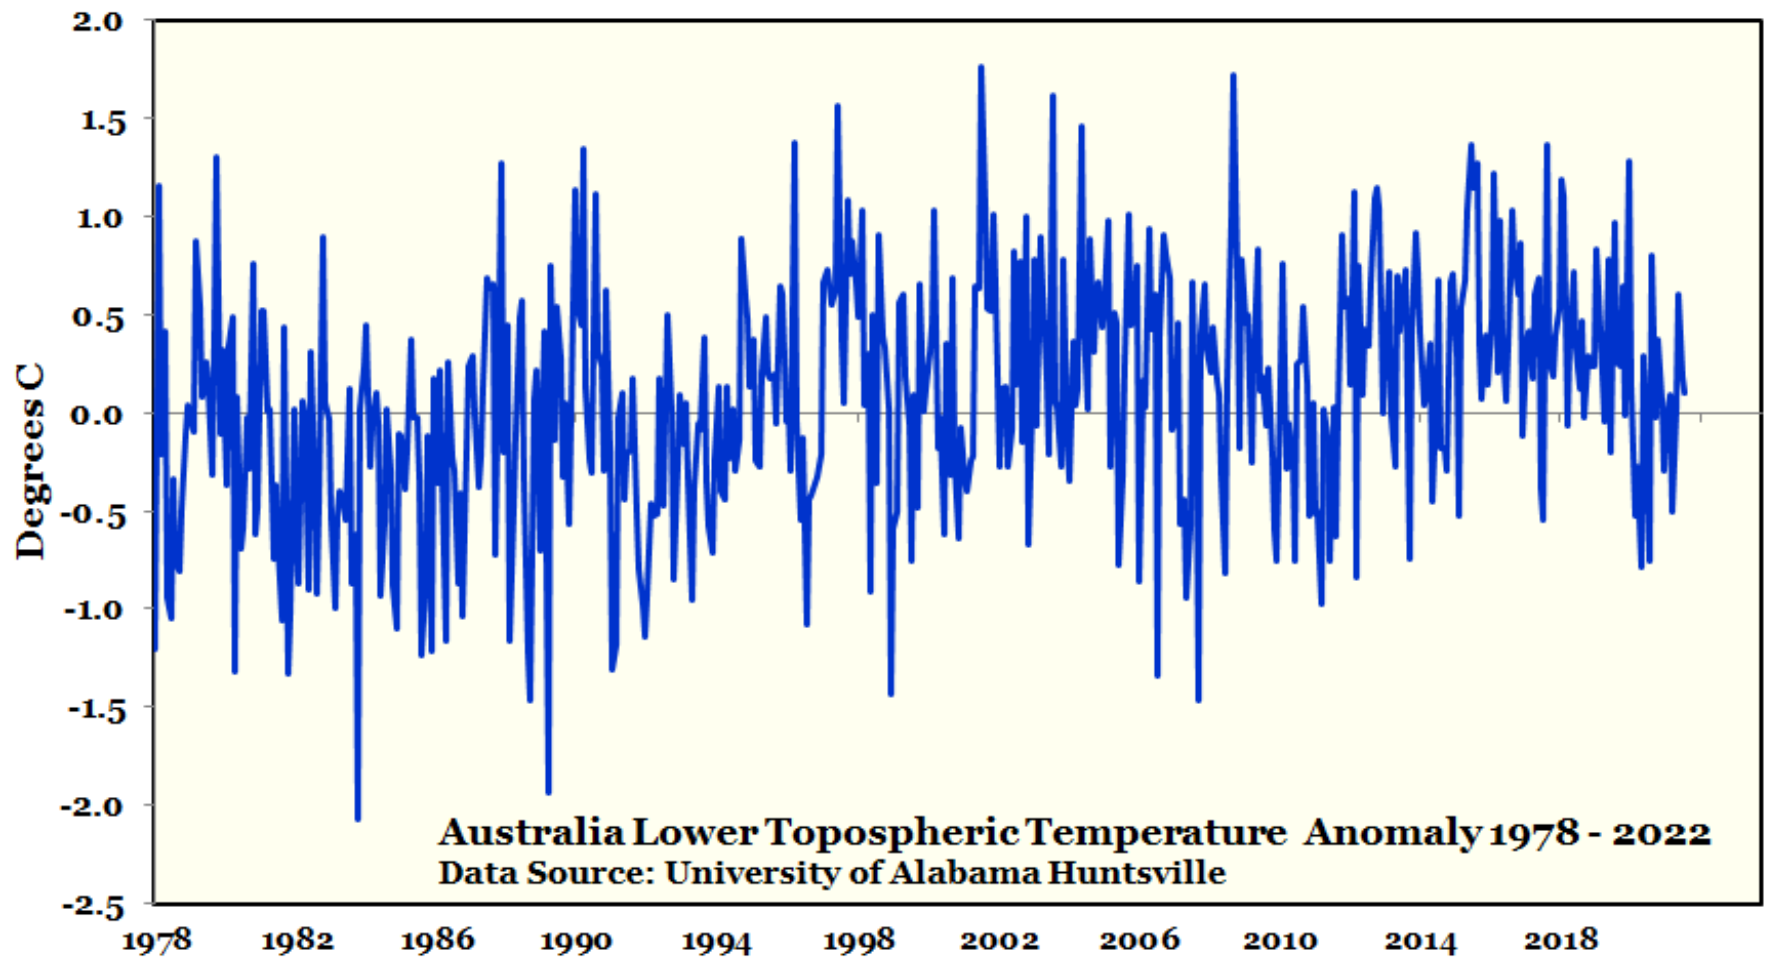

Has the world warmed?

The atmosphere hasn't warmed – in downtrend from 2016.

Stop The Climate Stupidity

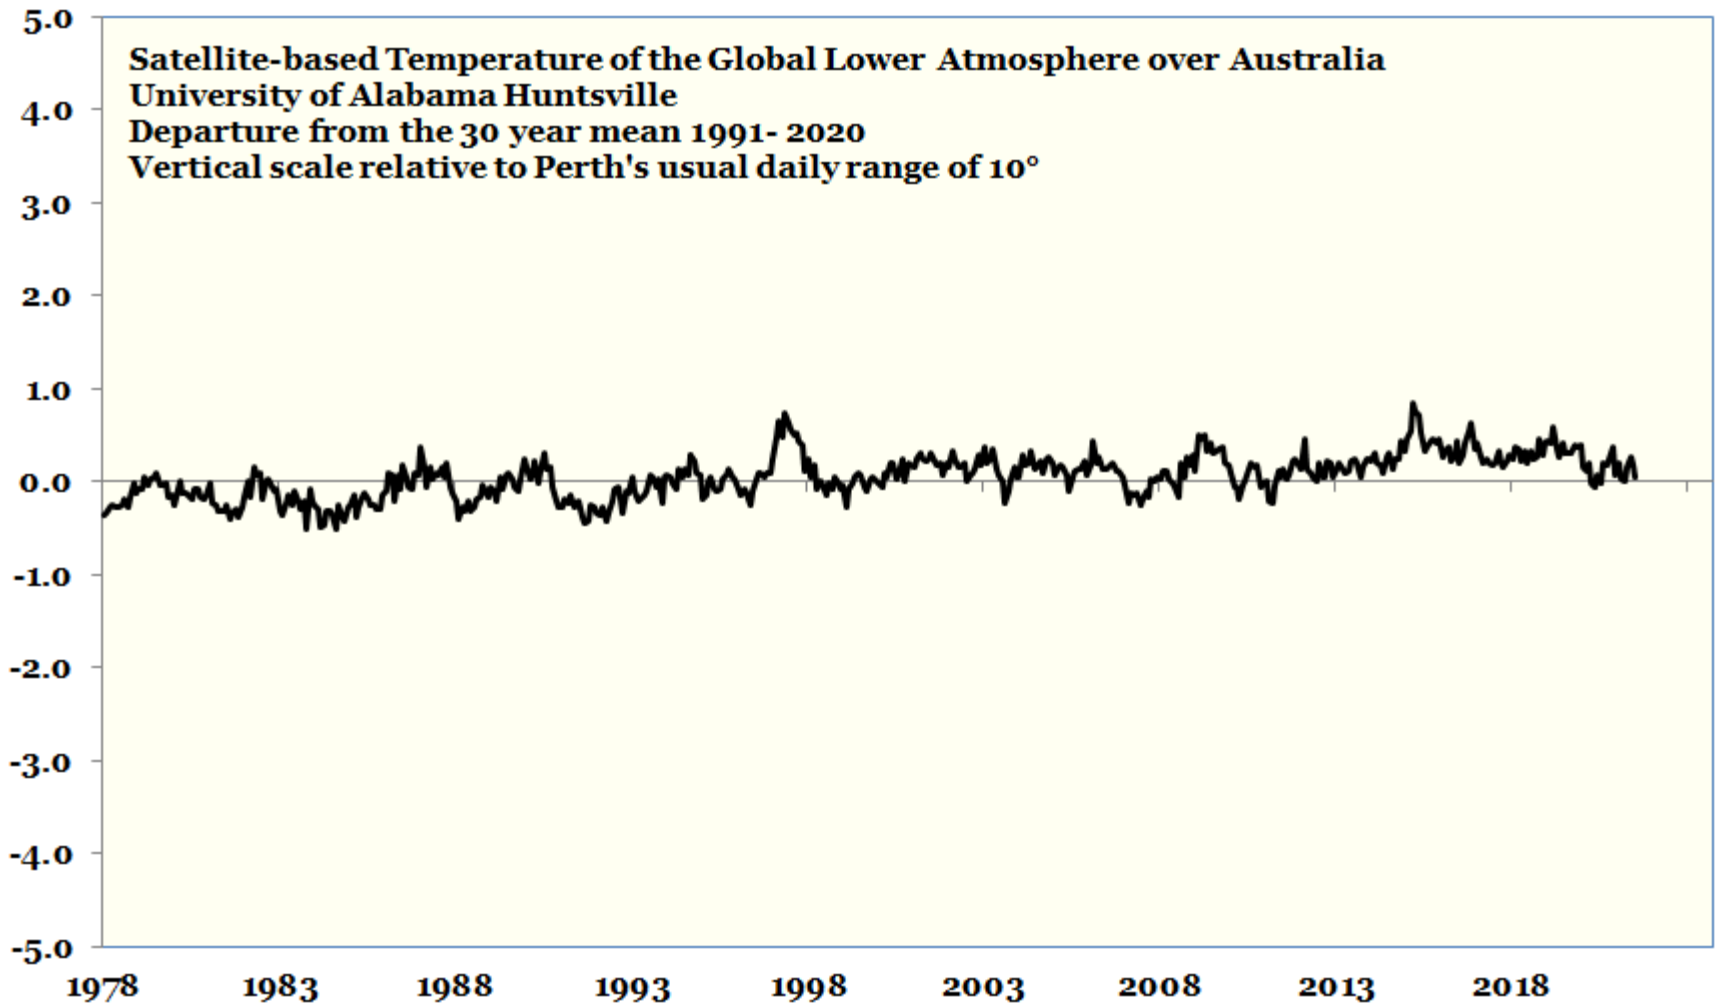

Australia is much the same.

Nothing has happened really – sideways for the last 25 years.

Stop The Climate Stupidity

Global warming as a lived experience.

Stop The Climate Stupidity

Cooling of the Nino 3.4 region also started in 2006.

The Nino 3.4 region is where a lot of Australia's weather comes from.

Stop The Climate Stupidity

Australia is setting new cold records.

JULY 7, 2022 CAP ALLON

QUEENSLAND CROPS “WIPED-OUT” BY RECORD-BREAKING COLD

Clarke confirmed that “many” cold weather records were broken across Queensland this week, with the standouts for him being Rockhampton peaking at only 12.5C (54.5F) yesterday, and Toowoomba struggling to just 7.6C (45.7F).

Other locales registered equally impressive readings: The Gold Coast Seaway set its coldest day of any month ever yesterday with 14C (57.2F); while further north, in Townsville, residents there suffered their coldest July day ever with a high of 15C (59F).

JULY 5, 2022 CAP ALLON

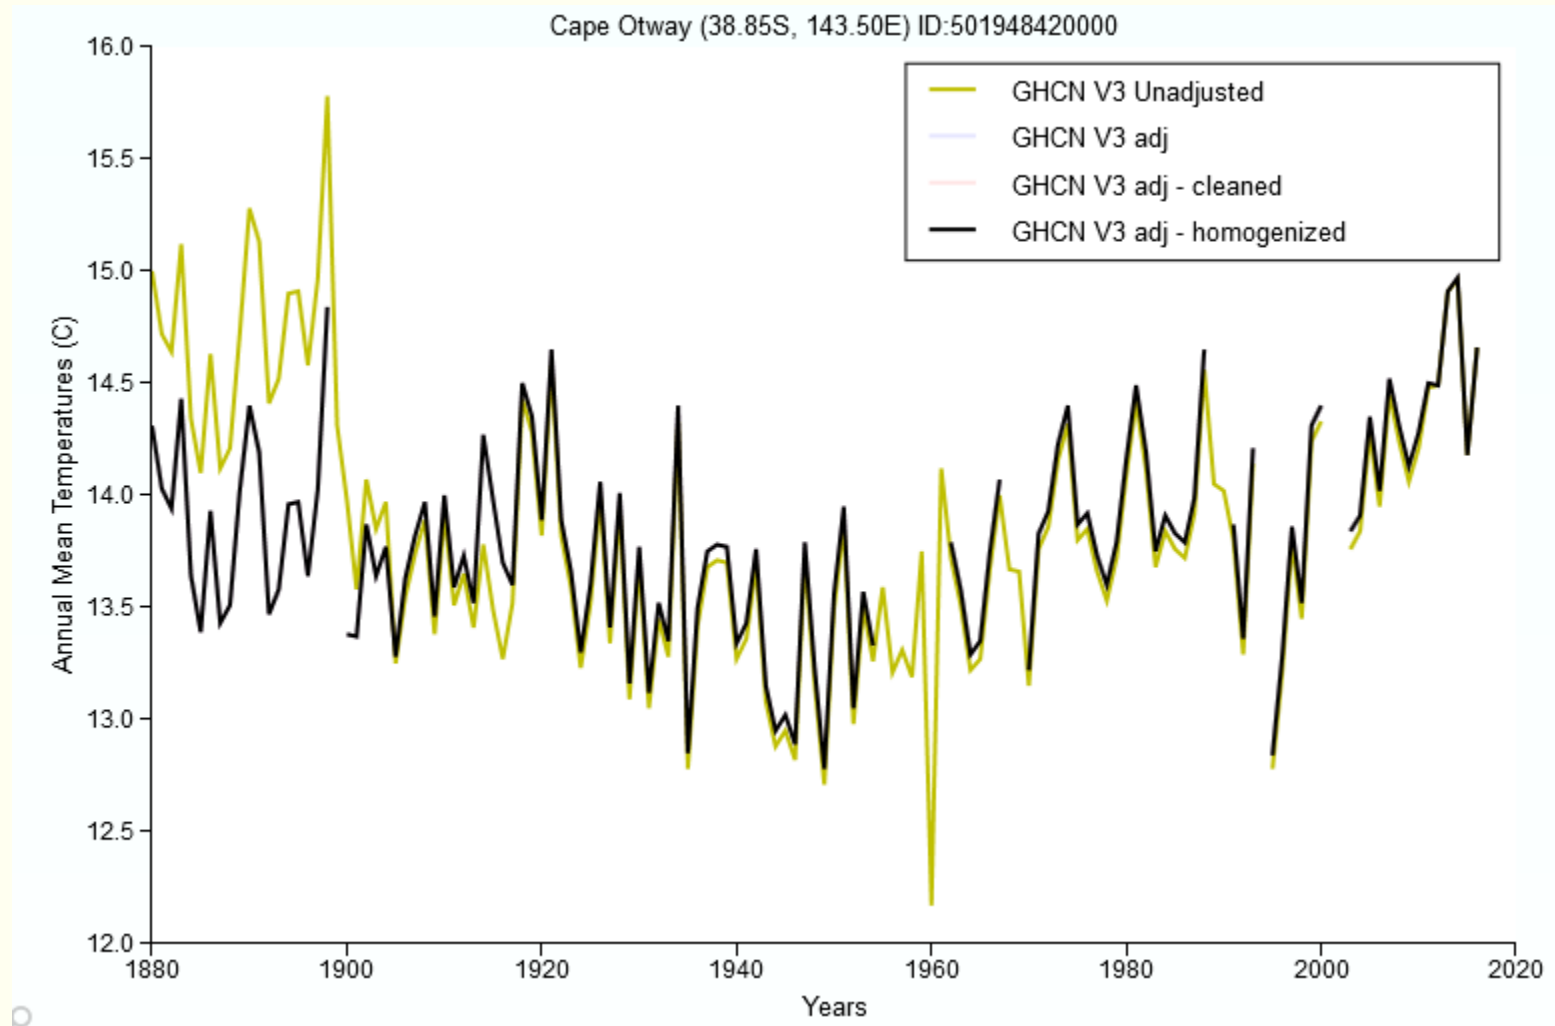

ALL-TIME COLD RECORDS FALL IN AUSTRALIA

Following its best start to a ski season ever, conditions have anomalously cold and snowy across swathes of Australia.

This is the winter of our discontent – no global warming.¹⁶

Stop The Climate Stupidity

Cape Otway not yet back to the temperature it was 120 years ago.

NASA record – to create global warming, make the past colder.

Stop The Climate Stupidity

The Hunter Valley missed out on global warming.

After falling for a century up to 1960, annual average temperature has risen back to what it was at Federation.

Stop The Climate Stupidity

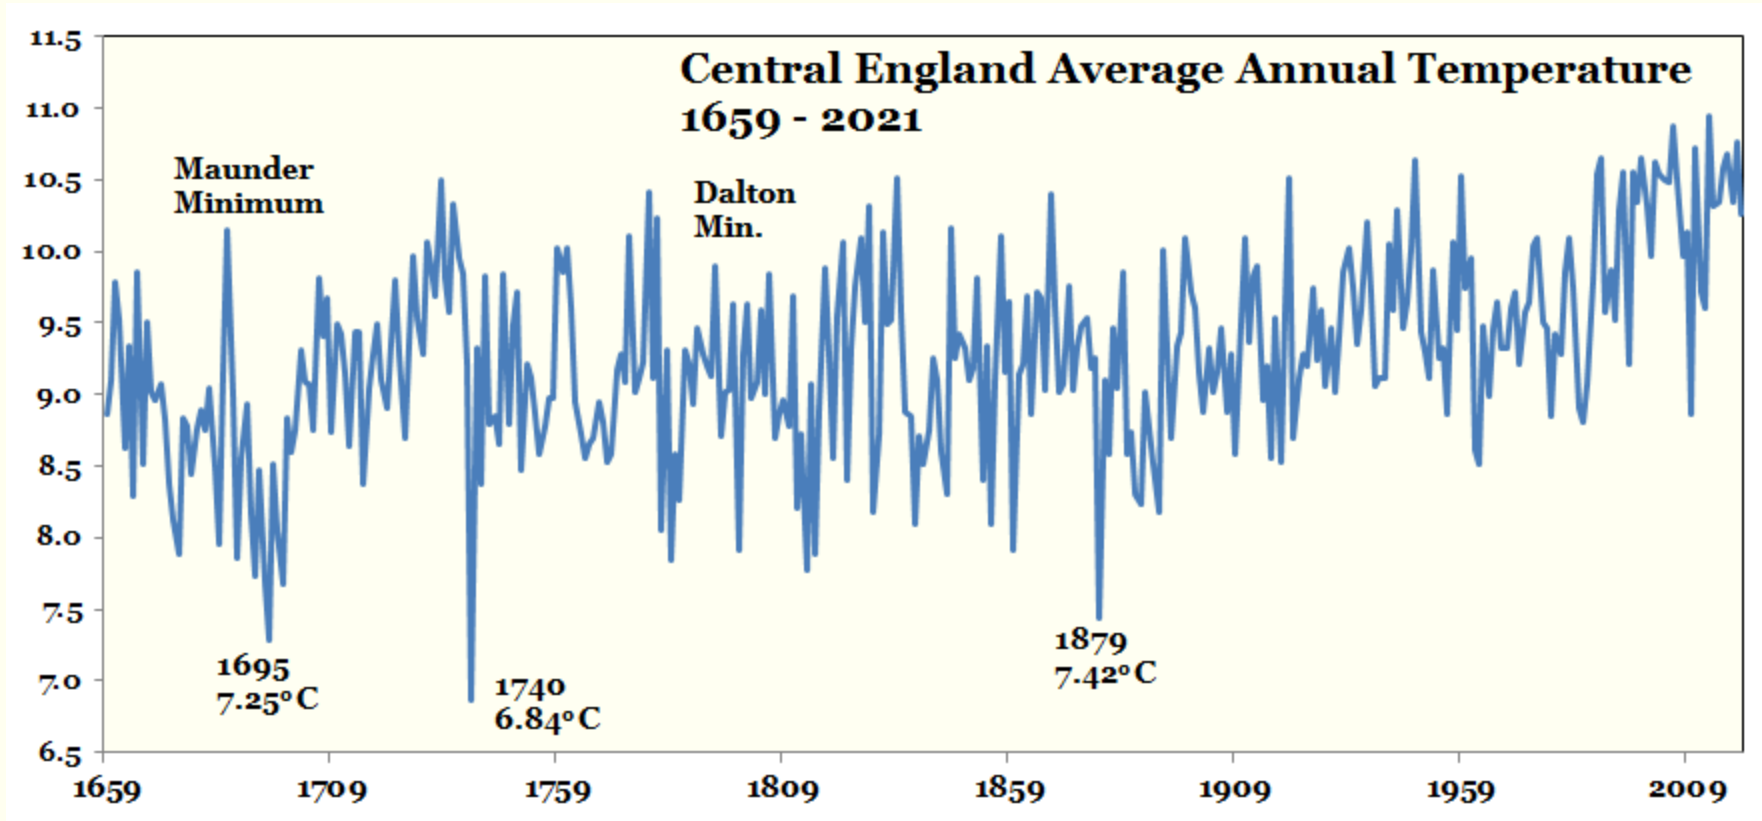

Cape Leeuwin also missed out on global warming.

We have gone below the 120 year average! Global warming is so insidious.

Stop The Climate Stupidity

The longest thermometer record on the planet

Only a fraction warmer than the early 18th century.

The spike down in 1740 killed 20% of the population of Ireland, 100 years before the Potato Famine of 1845 – 49.

Stop The Climate Stupidity

Vostok Ice Core Temperature

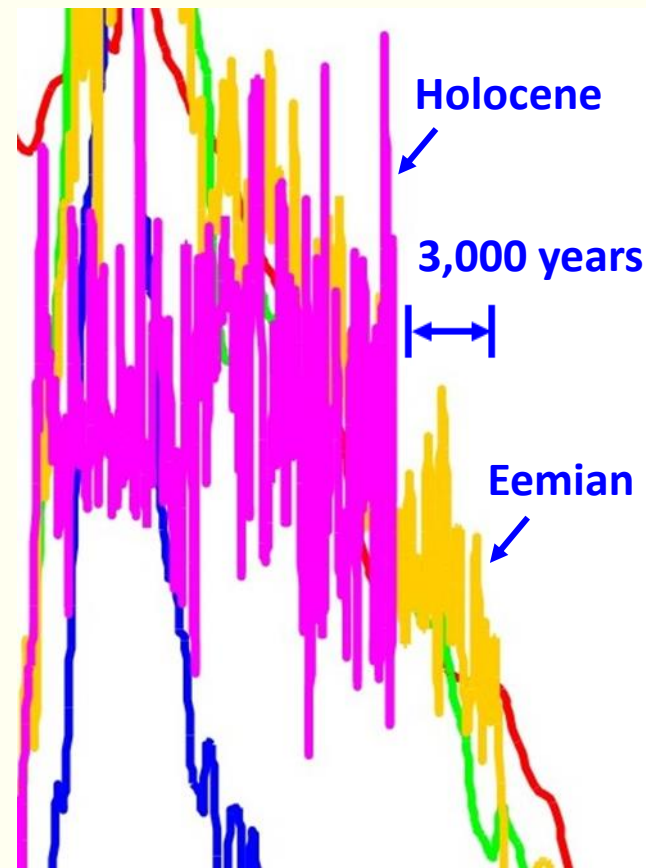

We live in a special time that is only 10% of the time.

Stop The Climate Stupidity

**Vostok Interglacials
Superimposed and
aligned on Peak
Temperature**

3,000 years max. is what we have left.

Stop The Climate Stupidity

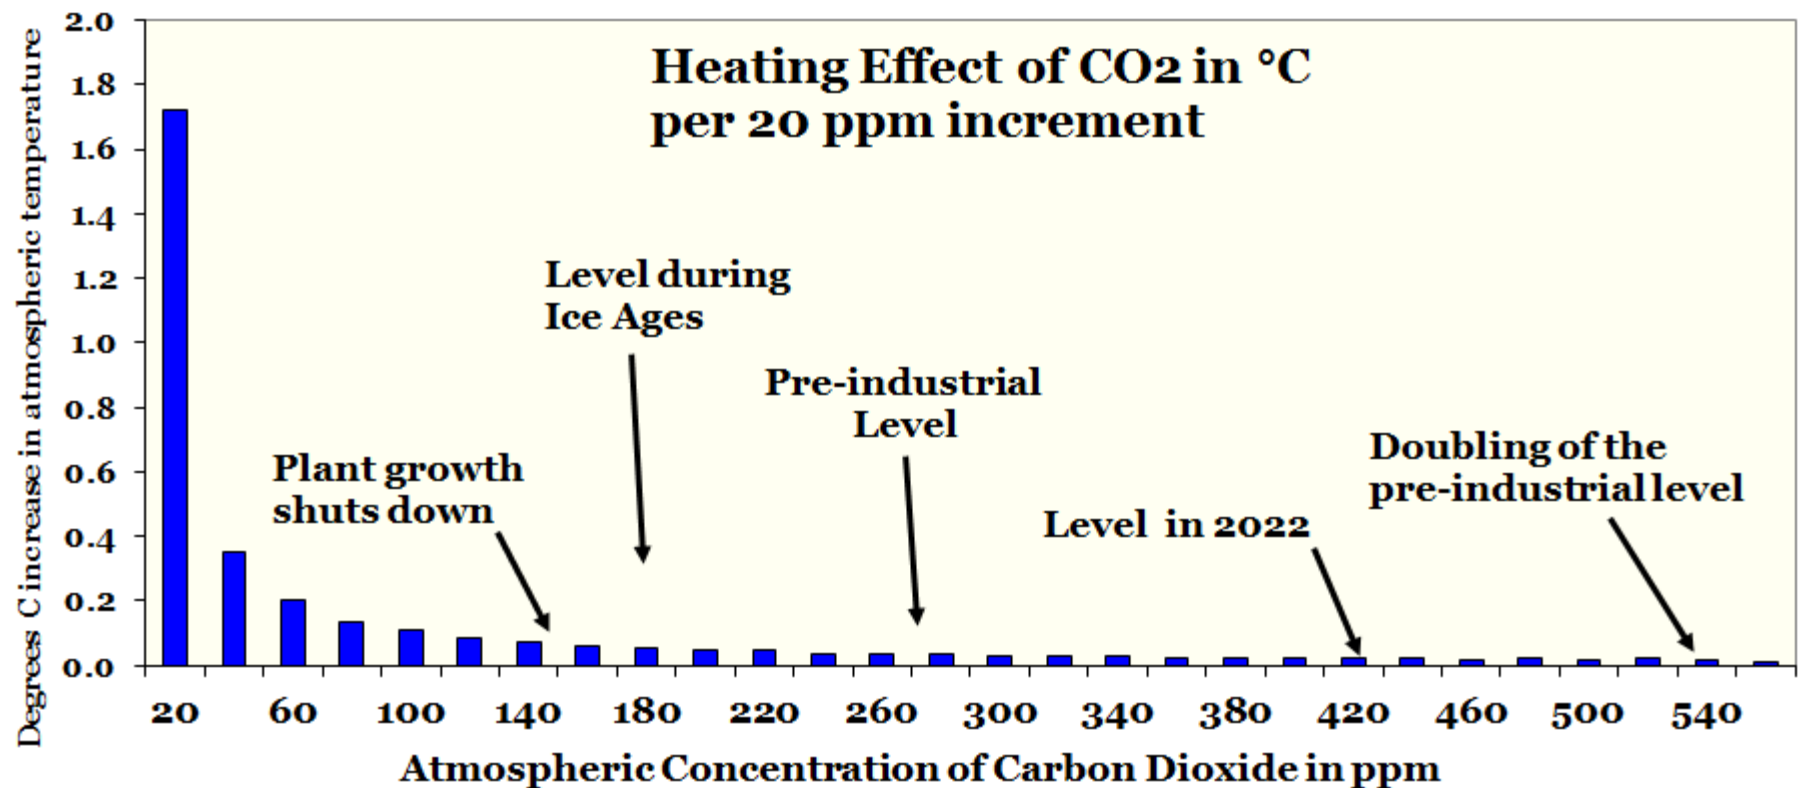

The next glacial period will be fully developed in 55,000 years.

3,200 human generations until the next interglacial.

Stop The Climate Stupidity

Is warming linked to CO2?

Yes, a little bit.

Stop The Climate Stupidity

Relative Contributions of Pre-Industrial and Anthropogenic CO₂

Stop The Climate Stupidity

**Belief in global warming requires a big leap of faith
and the abandonment of logic and reason.**

Stop The Climate Stupidity

The carbon dioxide content of the atmosphere got dangerously low.

Carbon starvation in glacial trees recovered from the La Brea tar pits, southern California

[Joy K. Ward](#),^{*†‡} [John M. Harris](#),[§] [Thure E. Cerling](#),^{†¶} [Alex Wiedenhoeft](#),^{||} [Michael J. Lott](#),[†] [Maria-Denise Dearing](#),[†] [Joan B. Coltrain](#),^{**} and [James R. Ehleringer](#)[†]

“We found evidence for severe and sustained carbon starvation in glacial Juniperus trees at La Brea.”

Stop The Climate Stupidity

Anthropogenic carbon dioxide has made us much safer.

Grain yields are going up at 0.6% per annum.

Stop The Climate Stupidity

That happens in commercial greenhouses every day of the week.

From the ad for the Johnson CO₂generator:

Nighttime levels in a greenhouse range from 400 to 500 ppm due to plant respiration.

Shortly after sunrise this level will drop to normal atmosphere (300 ppm) due to the plant using the early light to start photosynthesis.

After 3 to 4 hours of early morning sunlight the CO₂ level can drop to around 100 to 150 ppm, then growth is practically stopped.

Supplemental CO₂ added during this period can substantially increase your plant and flower production.

Stop The Climate Stupidity

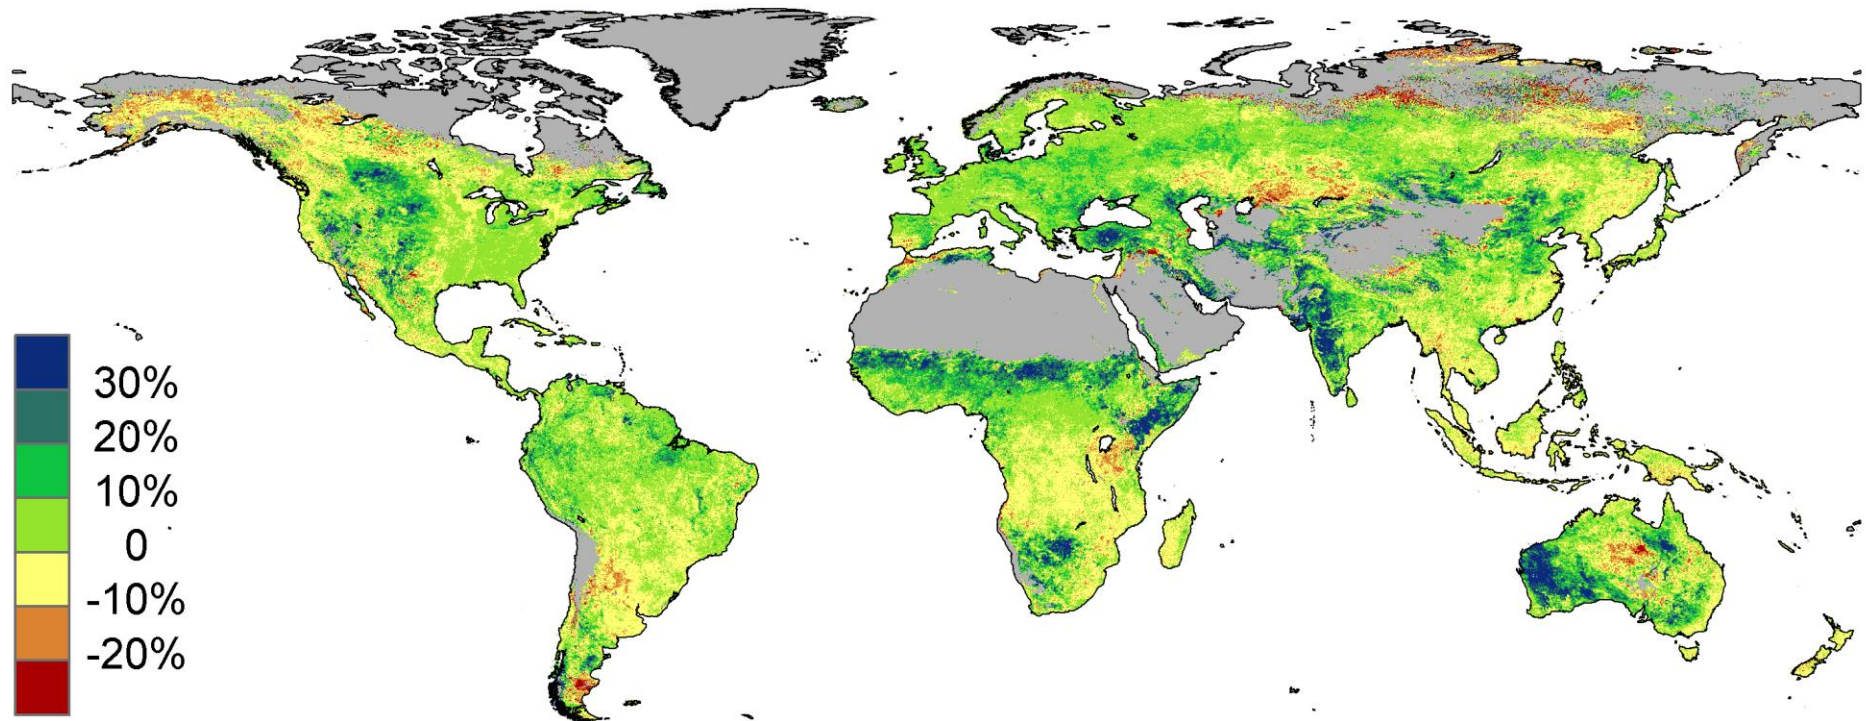

Homo sapiens is the saviour of all living things.

We evolved just in time.

Stop The Climate Stupidity

Plant growth up 30% in desert areas in 30 years - CSIRO.

No sane person could think that this is a problem.

Stop The Climate Stupidity

We send other people coal.

And we get it back as plant growth.

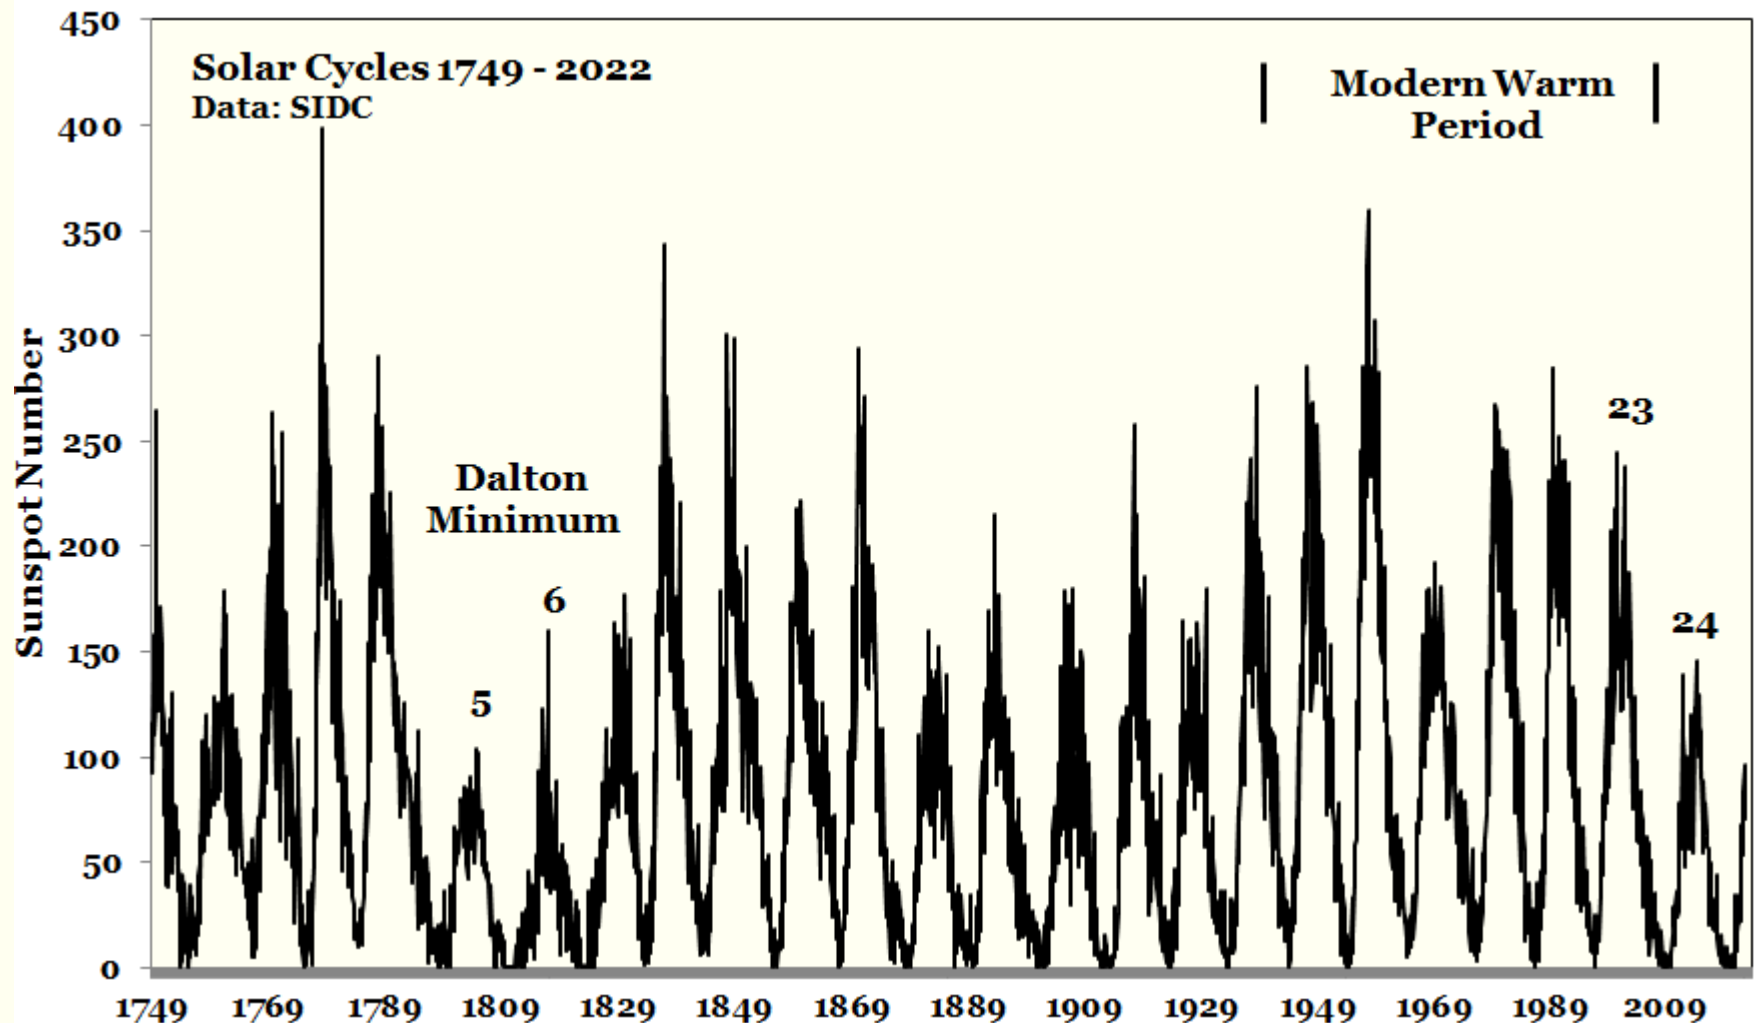

Stop The Climate Stupidity

Global warming is wishful thinking at best:

- 1. It can't happen in theory.**
- 2. There is no evidence for it in the climate record.**
- 3. All the evidence says that the more carbon dioxide in the atmosphere, the better.**

Stop The Climate Stupidity

Is there a more logical reason for the temperature rise of the 20th century?

Stop The Climate Stupidity

The rise in solar activity in the second half of the 20th century.

Is the cause of most of the warming that happened.

Stop The Climate Stupidity

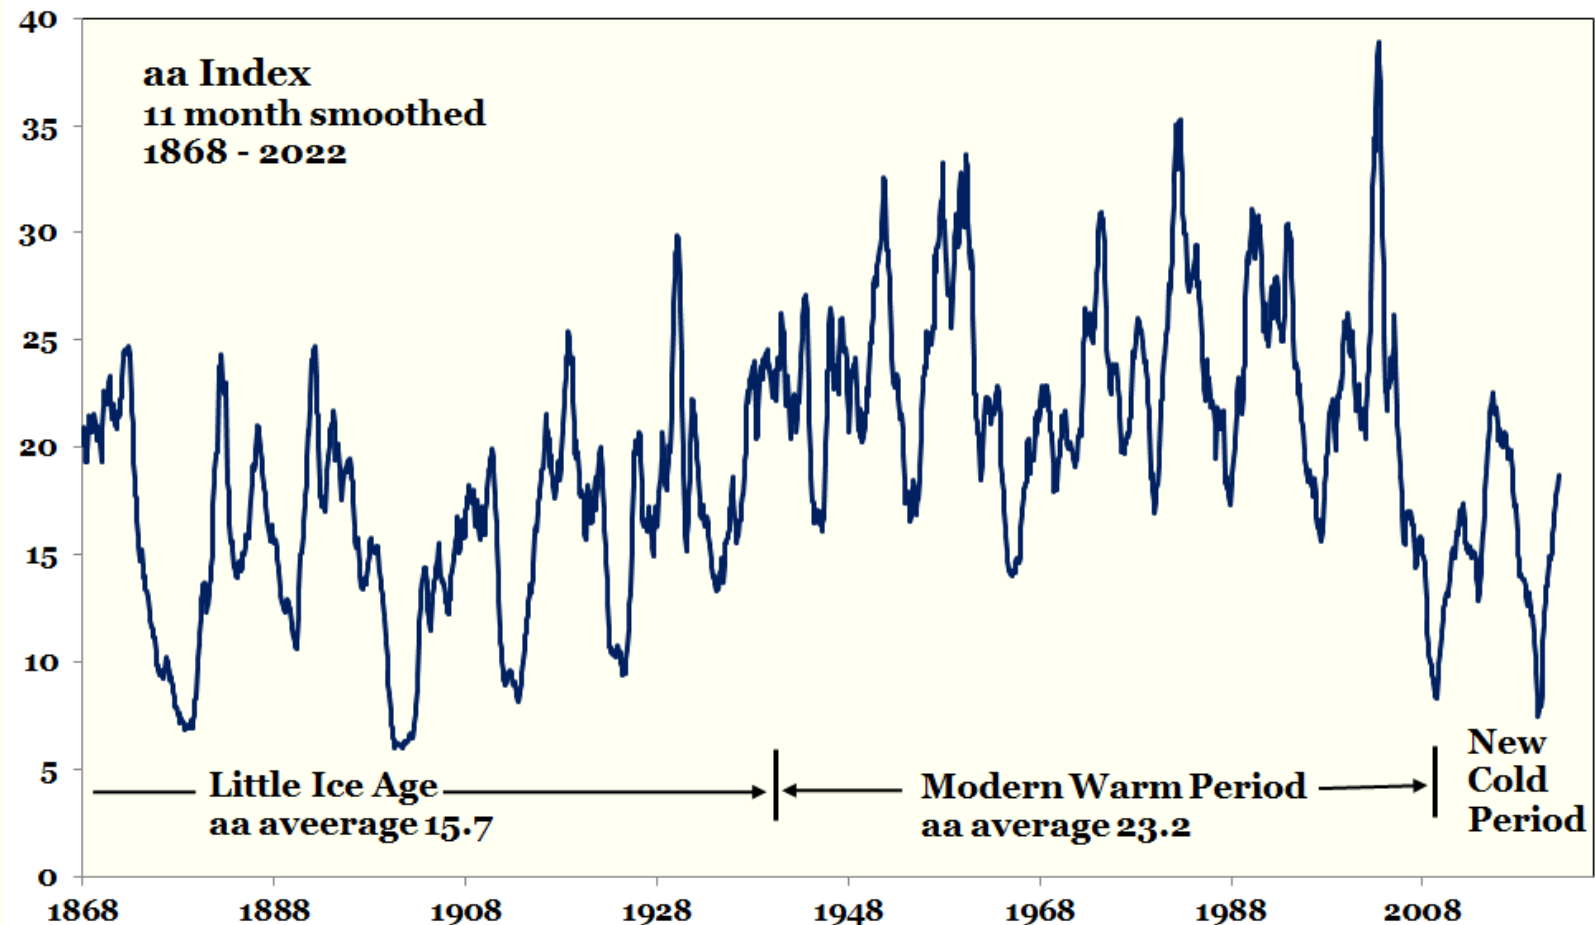

The Sun was more active in the second half of the 20th century than it had been in the previous 10,000 years.

It is solar radiation that stops the Earth from looking like Pluto.

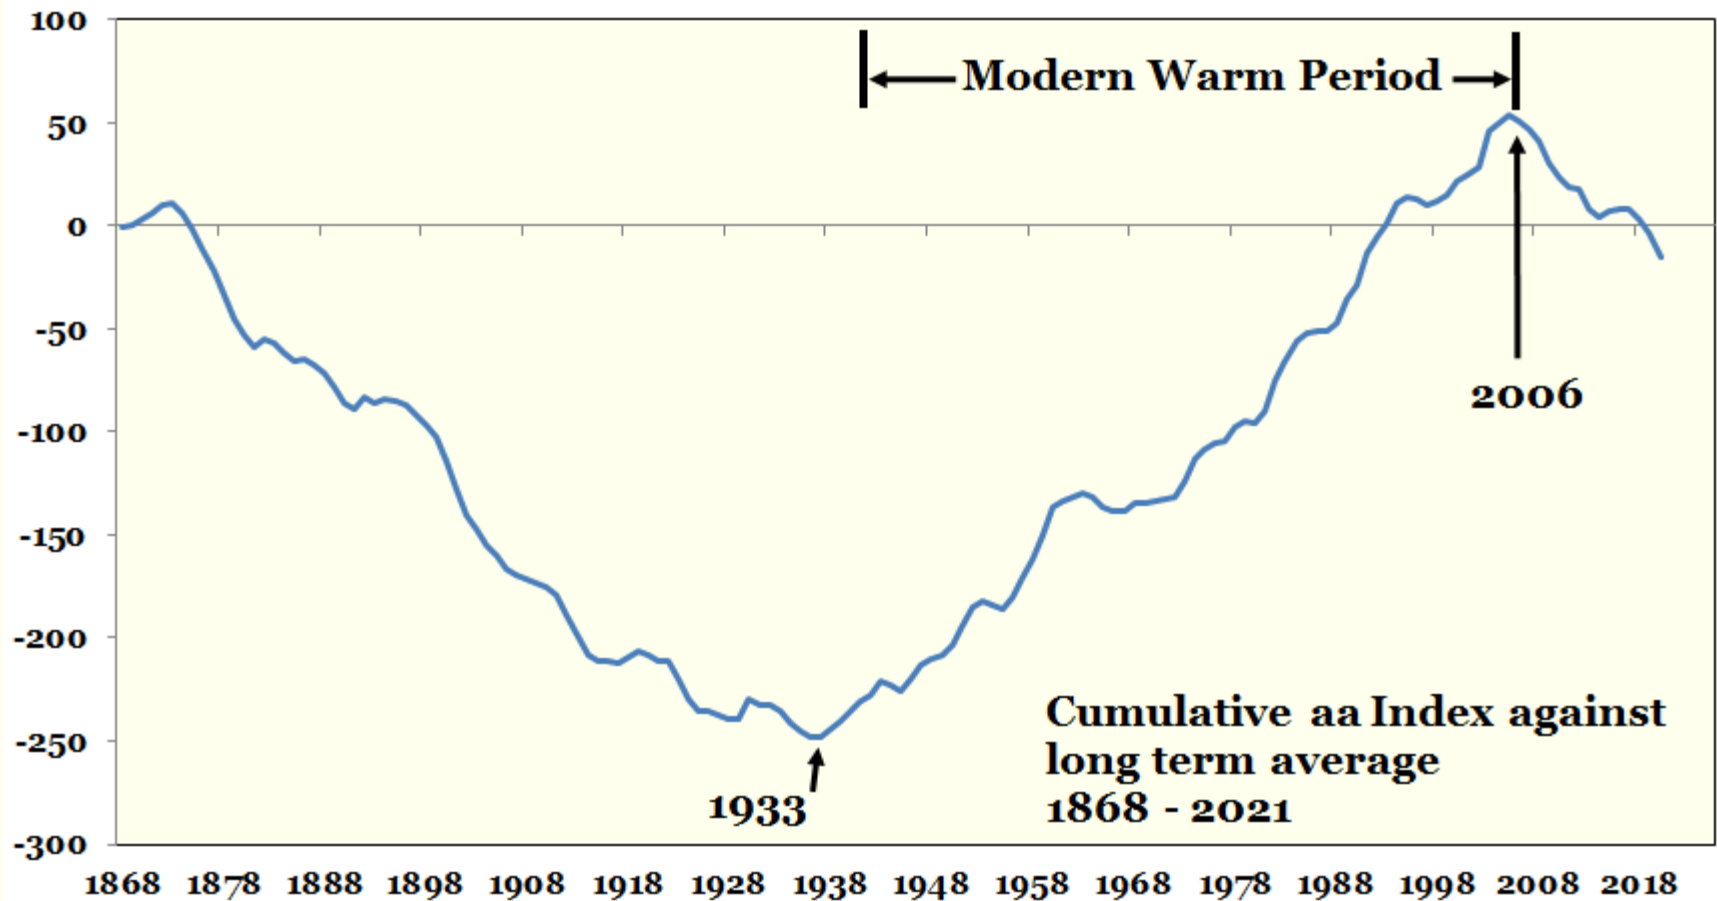

Stop The Climate Stupidity

More specifically, changing climate is explained by the Sun's changing magnetic flux.

Stop The Climate Stupidity

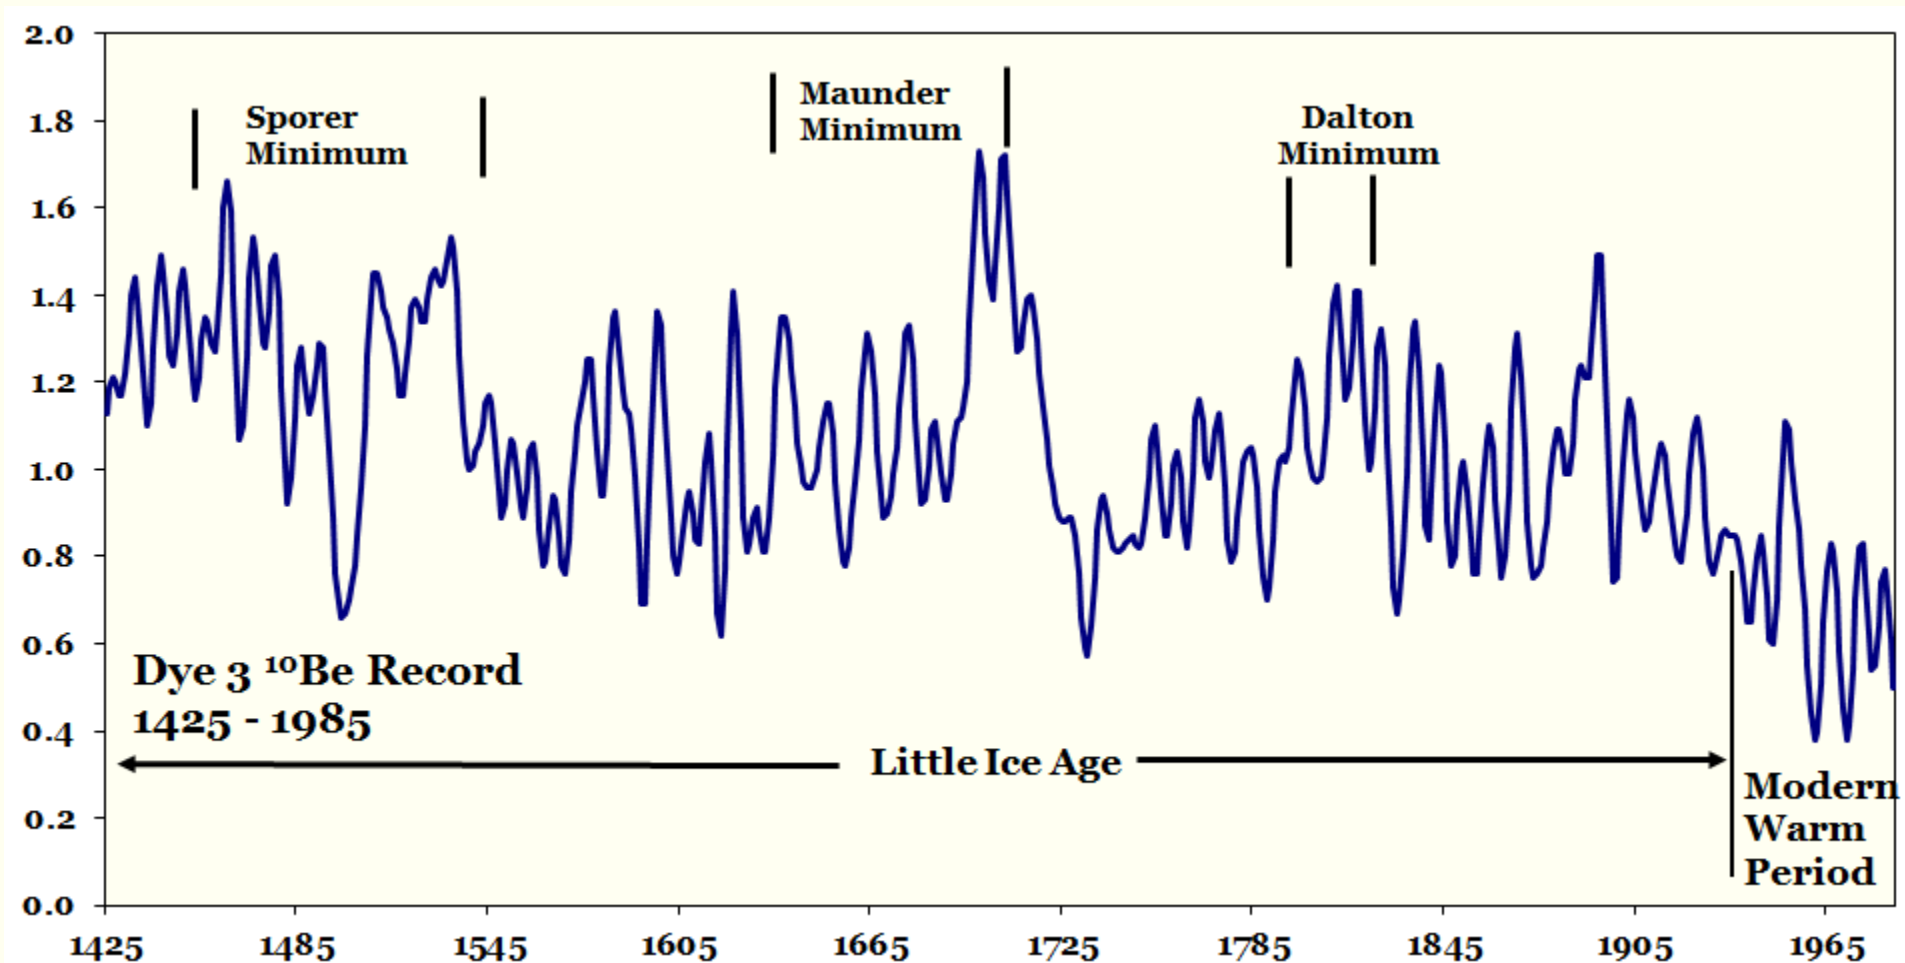

Cumulative aa Index against the long term average 1868 – 2021.

The warming is over.

Stop The Climate Stupidity

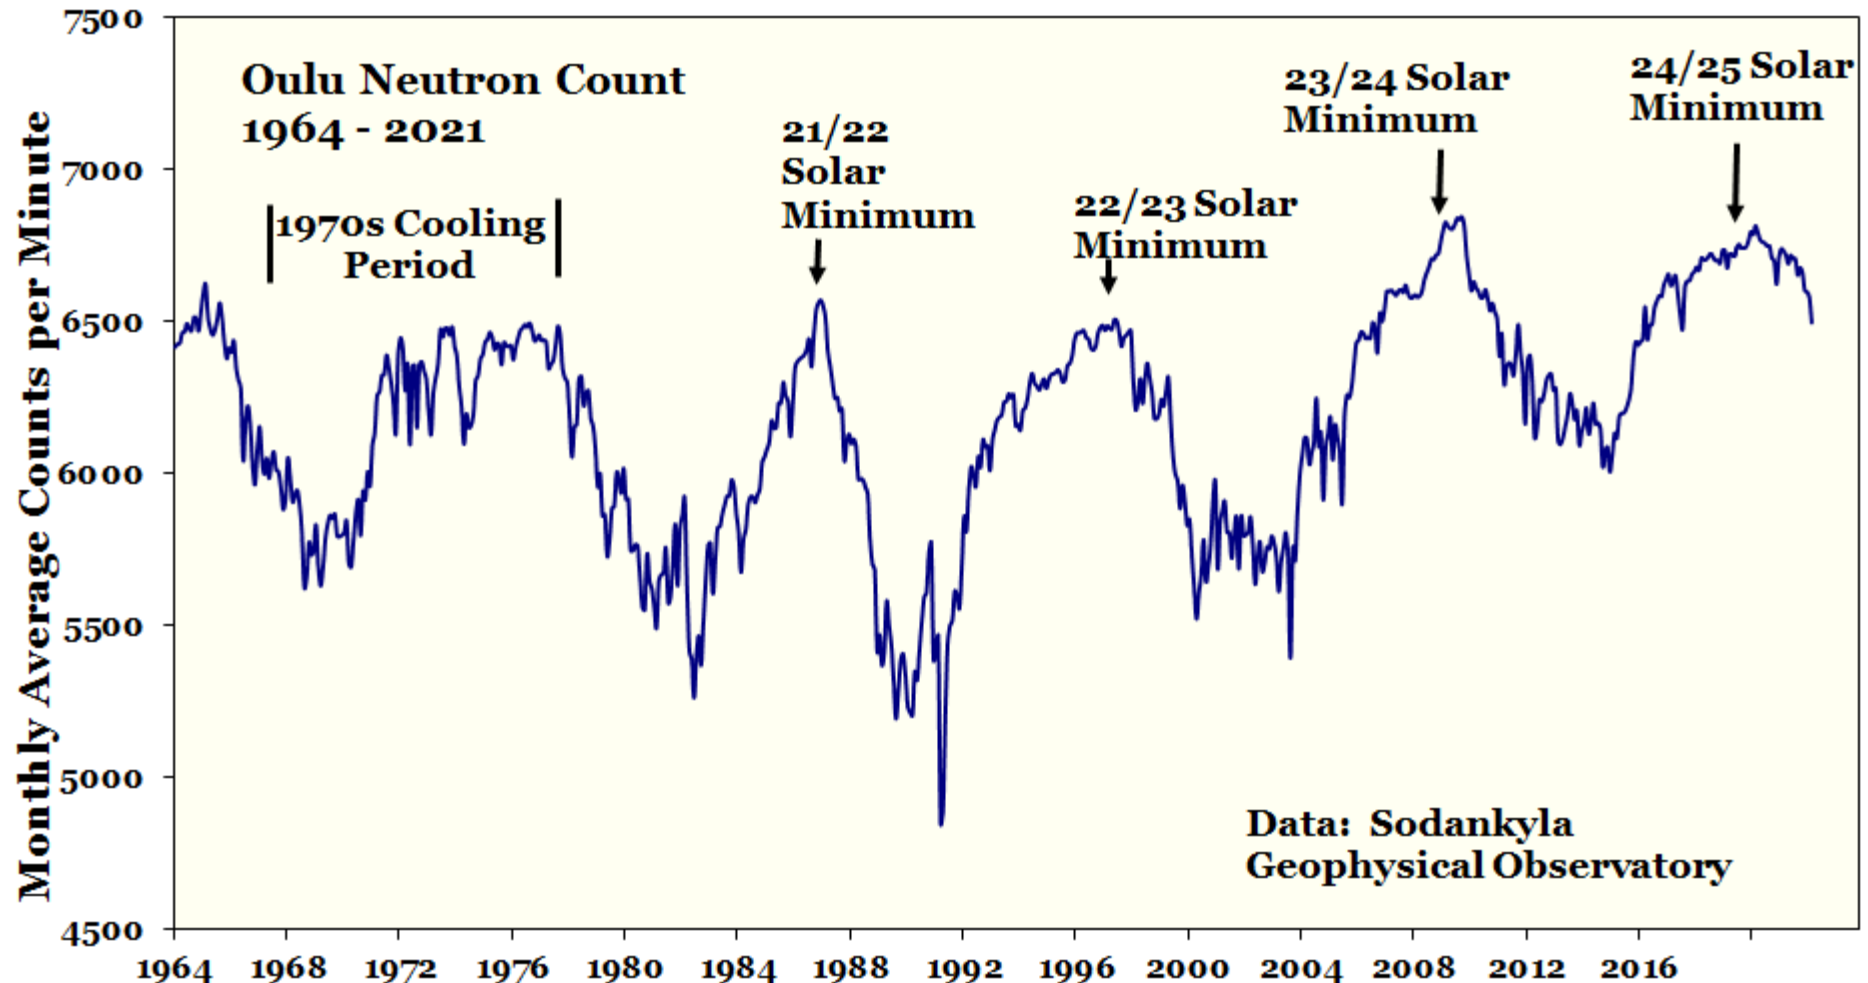

The message from the Antarctic ice cores: solar magnetic flux > galactic cosmic ray flux > neutron flux > Be¹⁰

The spike in the 1690s killed a third of the population of Finland.

Stop The Climate Stupidity

Neutron flux made a new peak for the instrument record.

More neutrons means more cloud formation and in turn a higher albedo.

Stop The Climate Stupidity

Yes, solar activity drives sea level.

Greenland's Glaciers Expanding Again

MARCH 11, 2019

Key Greenland glacier growing again after shrinking for years, NASA study shows

And so it has come to pass.

Stop The Climate Stupidity

The closest historic parallel to what Australia is doing to itself is the 1856 cattle-killing frenzy of the Xhosa tribe in what is now South Africa.

- **A teenage girl named Nongqawuse and her friend Nombanda went to fetch water.**
- **Upon returning, she said that had met the spirits of three of her ancestors who had told her that the Xhosa people should destroy their crops and kill their cattle.**
- **In return the spirits would sweep the British settlers into the sea.**
- **Then their granaries would fill again and their kraals would have more and better cattle.**
- **The cattle-killing frenzy that followed killed between 300,000 and 400,000 head of cattle.**
- **In the resulting famine, the population of the province dropped from 105,000 to fewer than 27,000.**

Stop The Climate Stupidity

Her gravestone

**Nongqawuse
on the right**

Nations shouldn't kill their cattle on the advice of simple-minded teenage spiritualists, neither should they destroy their coal-fired power stations on the urging of the current day versions of same.

Stop The Climate Stupidity

Conclusions on Climate:

1. **Yes the world has warmed and this was mostly due to the highest level of solar activity for 10,000 years.**

Most likely outcome is that we return to the climate of the 19th century.

2. **Carbon dioxide is tuckered out as a greenhouse gas and its effect from here is minuscule.**
3. **The level of carbon dioxide in the atmosphere got dangerously low during the last ice age and the higher we can take it, the safer the world will be.**
4. **There is no scientific reason to switch away from coal and other fossil fuels.**
5. **Anyone who believes in global warming is either evil or stupid.**

Stop The Climate Stupidity

Who are remorseless killers of our little old ladies who can't heat their homes in winter?

It all started with John Winston Howard:

- 1. In the 1960s young Winston travelled across Sydney to sit at the knee of Sir Phillip Baxter who told him of the wonders of nuclear power. Howard became a one man sleeper cell of nuclear advocacy.**
- 2. As Prime Minister, Howard knows Australians won't vote for nuclear so he decides to force it on us by upping the cost of coal-based power via a carbon tax.**
- 3. Howard's last dark deed was the National Greenhouse and Energy Reporting Act of October 2007. This is the auditing basis of the carbon tax.**
- 4. Gillard promises no carbon tax in the 2010 election but reneges.**

Stop The Climate Stupidity

- 5. Abbott wins the 2013 on the promise of repealing the carbon tax but three days after the election announces that the auditing basis of the tax won't be repealed.**
- 6. So the carbon tax has come back in another form and renewables legislation is killing the economy and little old ladies.**

Who will rid us of the menace of global warming hysteria?

Stop The Climate Stupidity

Power Prices

Market over supply is making investing in new generation difficult

Old thermal plant is cheaper to run than building new renewables

Stop The Climate Stupidity

When the idiocy began

John Howard wanted to force Australia to nuclear power.

Stop The Climate Stupidity

Coal in power generation peaked in 2001

Burning natural gas for power generation is almost as bad as using oil. ⁶³

Stop The Climate Stupidity

The whackos running the country are now coming for natural gas:

**Decarbonising
Australia's
gas networks**

This will throw away at least 70% of the contained energy.

Stop The Climate Stupidity

If we increase coal use, power costs will come down.

Stop The Climate Stupidity

Because we won't have to pay idiotic subsidies.

Subsidies per MWh of power

Stop The Climate Stupidity

More pointless pain and suffering is planned.

Coal-fired capacity closures to 2030

Stop The Climate Stupidity

Reliable coal-fired power is destroyed.

To create an inherently spiky, unstable grid enabling AGL to charge extortionate prices to generate exorbitant profits.

Stop The Climate Stupidity

The people who voted for a coal-free future are getting it good and hard.

The Labor governments in SA and Victoria took great delight in destroying their coal-fired power stations.

Now they are paying 100x the NSW and QLD levels for spot power.

Stop The Climate Stupidity

On the subject of South Australia, cost of power directly scales with renewables capacity – could go threefold from here.

Europe Electricity Price v Installed Wind + Solar Capacity

Stop The Climate Stupidity

Conclusions on Power Prices

- 1. Closing coal-fired power stations and tilting the competitive playing field away from coal is increasing costs for no benefit.**
- 2. Australia is throwing away its big competitive advantage for no benefit.**
- 3. Increasing costs unnecessarily destroys jobs.**
- 4. What is the point of exporting coal and not using it ourselves?**
- 5. The sooner this global-warming based idiocy is stopped, the sooner we will be safer, more secure and have a rising standard of living.**
- 6. Don't tinker at the margins, just reverse all the stupidity of the last 20 years.**

Stop The Climate Stupidity

Chinese coal production is about to start falling:

Which will make solar power in Australia more expensive.

Stop The Climate Stupidity

The more important Paris treaty

Turnbull signed us up to the Paris climate treaty on 23rd April, 2016. If we stay in it, it will make us a lot poorer for no good reason.

We signed the far more important International Energy Agency agreement in 1979.

This requires the 28 member countries to hold 90 days of stocks of fuel imports.

We have been non-compliant since 2012 and currently have 49 days of stocks.

Only two other countries have ever been non-compliant: Luxembourg (89 days in 2009) and Turkey (86 days in 2018).

To add 50 days worth of stocks will cost us \$6 billion for the fuel and another \$4 billion for the tankage.

We should double that to take the whole cost to \$20 billion.

Stop The Climate Stupidity

Conserve to Convert

Many stupid things have been done in Australia in the name of global warming.

Natural gas is 13% of the national power supply, 50% in WA.

When the world tips over into long term oil supply decline, natural gas will be priced as oil in energy content terms.

So using natural gas for power supply will be like burning oil in terms of cost.

Then in turn we will burn more coal.

But coal has an alternative use as a liquid fuel feedstock and will be priced like oil less the conversion cost.

The only long term solution that has a chance of providing us with a high standard of living is nuclear power.

Reactors using the existing dominant nuclear technology – U^{235} -burning light water reactors – are inherently unstable.

The sooner we develop an inherently safe breeder technology, the better. This is likely to be the Dual Fluid Lead-cooled Reactor.

Stop The Climate Stupidity

There is only one path.

- 1. Coal and oil were the fossil fuels given to us to take civilisation to a high level.**
- 2. U^{235} was the fissile isotope given to us as the match to start the nuclear fire which will maintain civilisation at a high level for all eternity.**
- 3. Departing from this will only end in tears and death.**
- 4. There is no role for renewable energy because it is not sustainable.**

Stop The Climate Stupidity

In conclusion:

- 1. In the next federal election vote for the party which credibly will stop the climate stupidity and repeal all climate and renewables legislation.**
- 2. Honour the Paris agreement we signed in 1979 and put in at least 100 million barrels of fuel stocks.**
- 3. Start developing the coal-to-liquids technology we will need long term.**
- 4. Develop the right nuclear technology so that the generations who follow us will have the highest standard of living possible.**
